25X1

Dear Roger:

Subject: [] Nairobi Visit

25X1

John Campbell called today to say a BBC man might be in Nairobi and that a representative might after all be able to brief [] there.

25X1

John made a hurried visit to Nairobi from Feb. 8 to 12, saying he had to go out there "to make some decisions." On his return he said he thought BBC could begin to operate about the end of August.

John Sheringham, whose trip was delayed owing to "certain circumstances," I presume had to remain here to do some of the final planning after John's return.

I feel there is no doubt that the BBC plans to proceed with its plans regardless of political developments there. Should I hear anything from the BBC which would lead me to change this view, I will write you immediately.

25X1

Sincerely,

[]

Chief, London Bureau
